

# HPC

HAND OPERATED  
POTATO CHIPPER

## METCALFE DETACHABLE BLOCK HPC

A detachable block chipper which can produce up to 5 different sizes of cut.

The "Detachable Block" Model Chippers have a removable bottom knife frame as well as removable upper blocks.

This makes for easy cleaning and allows the Chipper to become more versatile by offering the operator a range of chip sizes to choose from. Machines are available to produce any one of the following sizes:- 8mm, 10mm, 12.5mm, 14mm, or 8 piece potato wedger.

Alternative sizes of blocks, frames & knives that are available

## PRODUCT FEATURES

- Removable knife frame for easy & thorough cleaning
- Stainless steel knives - easily replaceable
- Heavy duty chromium plated spring
- Double roller action - for easy operation
- Chromium plated handle - for lasting wear
- White acrylic enamel finish
- Easy release knob for upper chipping head

## STANDS

Illustrated below are our bench mounting stand and floor mounting stand.

The table mounting stand is available in painted or stainless steel finish and eliminates the need to drill holes in the work surface in order to mount the chipper.

The tubular steel stand is designed to give the machine the correct operating height and has adequate space for a large receptacle to receive the chips.
